

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:

1. In an attempt to bring the material up-to-date provisional figures are included in some tables.
2. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
3. Differences as compared with previously published figures are due to subsequent revisions.
4. Values indicated within parenthesis are negative values.
5. The following symbols have been used throughout:-

n.a. = not available

— = nil

... = negligible

WEIGHTS AND MEASURES

Conversion Factors

British to Metric Units

1 acre	=	0.405 hectares (ha)
1 pound (lb)	=	0.454 kilogrammes (kg.)
1 long ton (2240 lbs)	=	1.016 metric tons (Mt. Ton)
1 hundred weight (cwt)	=	50.802 kg.
1 mile	=	1.609 kilometres (km.)
1 long ton mile	=	1.635 Mt. Ton km.
1 lb/acre	=	1.121 kg./ha
1 cwt/acre	=	125.536 kg./ha
1 pint	=	0.75 litres
1 imperial gallon	=	4.55 litres

Metric to British Units

1 hectare	=	2.471 acres
1 kilogramme	=	2.205 lbs
1 Mt. Ton (1,000 kg.)	=	0.984 long ton
1 metre	=	3.281 feet
1 kilometre	=	0.621 mile
1 Mt. Ton kilometre	=	0.612 long ton mile
1 litre	=	1.76 pints = 0.219 imp. gallons
1 kg./ha	=	0.892 lb/acre

Paddy/Rice Conversions

1 bushel of paddy (46 lbs)	=	20.87 kg.
1 Mt. Ton paddy	=	47.92 bushels paddy
	=	0.7 Mt. Ton rice
1 Mt. Ton rice	=	68.46 bushels paddy
	=	1.43 Mt. Ton paddy
1 bushel paddy/acre	=	51.55 kg. paddy/ha

(a) Revised.

(b) Provisional.

(c) Including green tea.

(d) Extent under tea and extent in bearing was revised based on the Census of Tea Small Holdings in Sri Lanka conducted by the Department of Census and Statistics in 2005.

(e) The weighted average cost of production of public sector, estates and private plantation companies. Includes green leaf suppliers profit margin.

(f) Extent under rubber is based on the Census of Agriculture conducted by the Department of Census & Statistics in 2002.

(g) Cost of Production revised in 2002 based on a survey conducted by the Rubber Development Department in 2003.

(h) Extents covered by cultivation assistance schemes of the Rubber Development Department.

(i) Three major coconut kernel products only.

(j) Extents covered by cultivation assistance schemes of the CCB.

(k) On a cultivation year basis.

(a) Revised.

(b) Provisional.

(c) Elevational categories – Low grown : 0 to 610 metres above Mean Sea Level (MSL)
– Medium grown : 610 to 1,220 metres above MSL.
– High grown : over 1,220 metres above MSL.

(d) Conversion rates have been revised in 1998, based on a study conducted by the CDA in 1996/97.

Prior to 1998 From 1998 onwards

1 MT D.C. 6,800 nuts 8,000 nuts
1 MT Coconut oil 8,000 nuts 8,800 nuts
1 MT Copra 4,925 nuts 5,775 nuts
1 MT Coconut milk/powder / cream 6,800 nuts 8,000 nuts

(e) Estimated on the basis of per capita consumption of 94 nuts per year. From 1999 onwards, estimated at 95.52 nuts per head per annum. Excludes industrial use.

(f) Estimate (breakdown does not add up to total production due to an adjustment for changes in stocks).

(a) The Sri Lanka Consumers' Price Index has a base 1995 to 1997 = 100. The index covers the consumption basket of the lowest 80 per cent of households in Sri Lanka except the Northern and Eastern provinces and prices across Sri Lanka, except the Northern Province. Weights are based on the Household Income and Expenditure Survey 1995/96 revalued at 1995-1997 prices. The total basket value (at 1995-1997 prices) was Rs. 4,785.96.

(b) Annual and quarterly figures are averages of monthly figures.

- (a) The Index numbers are calculated on fixed weights based on the numbers employed as at 31 December 1978. The wage rates used in the calculation of Index Numbers are minimum wages for different trades fixed by the Wages Boards.
- (b) The Index for Central Government employees has been revised based on the number of employees and total salaries as at 1 January 1986. The wage rates used in the calculation of Index Numbers are the initial salaries and wages in each respective scale.
- (c) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms, and pepper growing trades only.
- (d) Including baking, brick and tile manufacturing, coconut manufacturing, printing, textile, tyre

and tube manufacturing, coir mattresses and bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit and confectionary, tea export and rubber export trades only.

- (e) This includes cinema, motor transport and nursing home trades only.
- (f) Combined index for workers in agriculture, in industry & commerce and in services.
- (g) A combined index for Non-Executive Officers and Minor Employees.
- (h) Provisional
- NWRI = Nominal Wage Rate Index RWRI = Real Wage Rate Index

(a) Based on Census of Population and Housing - 1981.

Source : Registrar General's Department

(b) Historical inter-censal series of population estimates. The series breaks at year 2000, after which a new series begins with population statistics from the Census of Population and Housing - 2001.

(c) Based on Census of Population and Housing - 2001 conducted after a period of 20 years since the last census was conducted in 1981.

(d) Provisional.

(e) Although in the 1981 census, Jaffna and Killinochchi comprised one district, the disaggregated population data for the two districts have been provided for 1981 as well, to be consistent within the present district structure.

(f) Statistics for 2002 were obtained by the Registrar General's Department from the GA of the district. Estimates for other districts were calculated by projecting the Census - 2001 figures using natural increase in population and net migration statistics in 2002 for each district.

(a) A new series with a wider coverage and with the base year as 1997. In the former annual trade indices series, the price index was first computed as a Laspeyres index and the volume index was derived as the ratio between the value index and the price index (effectively as a Paasche index). In order to accommodate the variability of items arising from the greater frequency of a monthly index, the new monthly trade indices series first computes the volume index as a Laspeyres index and then derives a unit value index as the ratio between the value and volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A new series with a wider coverage and with the base year as 1997. In the former annual trade indices series, the price index was first computed as a Laspeyres index and the volume index was derived as the ratio between the value index and the price index (effectively as a Paasche index). In order to accommodate the variability of items arising from the greater frequency of a monthly index, the new monthly trade indices series first computes the volume index as a Laspeyres index and then derives a unit value index as the ratio between the value and volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A new series with wider coverage and with the base year as 1997. In the former annual trade indices series, the price index was first computed as a Laspeyres index and the volume index was derived as the ratio between the value index and the price index (effectively as a Paasche index). In order to accommodate the variability of items arising from the greater frequency of a monthly index, the new monthly trade indices series computes the volume index as a Laspeyres index and then derives a unit value index as the ratio between the value and volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) Computed from weekly averages.

(b) Based on a study conducted by the Coconut Development Authority in 1996/97, the rates applicable for conversion of volume of three major coconut exports to nut equivalent (from kgs.) have been revised from 1998. Refer Table 14 footnote (d) for the conversion formula.

(c) This refers to prices of the best quality copra.

(d) Provisional.

(a) Computed from weekly averages.

(b) Based on a study conducted by the Coconut Development Authority in 1996/97, the rates applicable for conversion of volume of three major coconut exports to nut equivalent (from kgs.) have been revised from 1998. Refer Table 14 footnote (d) for the conversion formula.

(c) This refers to prices of the best quality copra.

(d) Provisional.

Source : Central Bank of Sri Lanka

(a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund, in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Foreign Currency Banking Units (FCBUs) have been treated as a part of the domestic banking system.

(b) Provisional

(c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.

(d) Includes port expenditure

(e) Passage collections by foreign shipping agents and airlines are included in Passenger fares.

(f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.

(g) Indicates outright grants received in the form of project aid.

(h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.

(i) The change in capital of the monetary sector is based on local records.

(j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF. Sri Lanka Rupee values reflect changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

(a) Special Drawing Right, the unit of account of the International Monetary Fund.

Source : Central Bank of Sri Lanka

(b) The NEER is a weighted average of nominal exchange rates of 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(d) Provisional. (NEER and REER)

(a) Annualised Forward Premium (P^f) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$P^f = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(b) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct repayment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in previous financial years. Hence, the figures may not tally with the figures published in the Accounts of the Government of Sri Lanka.

(b) Includes cash items in process of collection in the Central Bank and commercial banks, government import bills, overdraft and OBU borrowings from the banking sector.

(c) Includes cash loans received from the I.M.F., Iraq, China, OPEC, Japan and military equipment loans and Euro currency commercial loans.

Source: Central Bank of Sri Lanka

- (a) Total amount of currency, including subsidiary notes and coins issued by the Central Bank.
 (b) Currency held by the Treasury and the Kachcheries.
 (c) Total demand deposits held by the Central Bank and the commercial banks.
 (d) Government demand deposits with the commercial banks and the Central Bank.
 (e) Inter bank deposits both local and foreign, including deposits of international organisations and commercial banks with the Central Bank.
 (f) M₂ is defined as M₁ plus time and savings deposits of the public held with commercial banks.

- (g) Monetary data from 1990 have been reclassified as follows to be consistent with standard international practice.

Columns 5 & 8 – Excludes the value of rupee demand deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.834 million at end December 2006).

Column 10 – Excludes the value of rupee time and savings deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.1,877 million at end December 2006).

Source: Central Bank of Sri Lanka

(a) External assets (net) of the Central Bank and commercial banks (including outward bills).

(b) Currency and demand deposits held by the public.

(c) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.

(d) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 1 – Excludes rupee demand deposits held by customers resident outside Sri Lanka. These are now treated as foreign liabilities (Rs. 834 million at end December 2006).

Column 3 – Adjusted:

- to include effect of the quota subscriptions made to the IMF and liabilities on account of other transactions with IMF which are not reflected in the balance sheet of the Central Bank. However, with effect from January 2002, the total amount of IMF quota is included in the Central Bank's balance sheet with the adoption of International Accounting Standards (IAS).
- to include the balance in the Crown Agent's Account of the Government (Rs. 2 million at end December 2006).
- to include the revaluation effect of the Structural Adjustment Facility and the Standby Arrangement with the IMF - Rupee Account until December 2002. Since January 2003, all IMF related assets and liabilities have been revalued to current market rates in the balance sheet of the Central Bank.

(iv) to include rupee deposits of customers outside Sri Lanka as foreign liabilities (This reduces the net external assets of the commercial banks by Rs.2,711 million at end December 2006).

Column 6 – Net credit to the Government by the Central bank includes cash item in process of collection (Rs.0 at end December 2006) but excludes the Central Bank's assets on special advances given to the government on account of obligations to the IMF which had been shown in the CBSL balance sheet until September 2002.

Column 16 – Adjusted for cash items in process of collection (Rs.0 at end December 2006) and special advances given by the Central Bank to the government on account of IMF obligations. The amount of special advances was removed from the CBSL's balance sheet since October 2002 to be compatible with the accounting treatment of IMF quota under International Accounting Standards.

(e) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd. with effect from August 2005.

(f) Restructuring bonds worth Rs. 19,392.6 million which were issued by the government to the two state banks have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other assets has been included in Net Credit to Government since October 2006.

(a) This new monetary survey is based on the aggregate data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka.

Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;

(Contd.)

(iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills).

(c) Currency and demand deposits of the public.

(d) Time and savings deposits of the public held with commercial banks.

(e) Credit extended by the banking system to the government, net of government deposits with banks and government cash deposits.

Source: Central Bank of Sri Lanka

(f) Credit granted to Sri Lanka Telecom Ltd., has been excluded from public corporations and included in private sector from December 1997 onwards.

(g) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd. with effect from August 2005.

(h) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets, has been included in Net Credit to Government since October 2006.

(a) This financial survey is based on the aggregate data pertaining to Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of commercial banks, Licenced Specialised Banks (LSBs) and Registered Finance Companies (FINCOs) operating in Sri Lanka.

Definitional changes have been adopted in aggregating DBUs, OBUs, LSBs and FINCOs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;

(ii) All RNNFC balances are treated as foreign liabilities;

(iii) All other domestic foreign currency accounts are treated as domestic liabilities.

- (b) External assets (net) of the Central Bank, Commercial banks (including outward bills), LSBs and FINCOs .
- (c) Currency, demand deposits and quasi-money in DBUs in this table differ from those in Table 118 due to the fact that LSBs and FINCOs are not treated as public under this broad monetary survey (M₄) definition.
- (d) Time and savings deposits of the private sector with commercial banks and LSBs and FINCOs.
- (e) Credit extended by the Monetary Authority, DBUs, OBUs, LSBs and FINCOs to the Government, net of Government deposits with banks and Government cash deposits.

- (a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422) , commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. The rate applicable (with effect from 19.10.2001) is 10 per cent of their all the rupee deposit liabilities. With effect from 24 January 1992 an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios which were applicable in the past and computational methods have been published in the Appendix table on 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.
- (b) Reserves data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.
- (c) Excludes interbank deposits.
- (d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

Source: Central Bank of Sri Lanka

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which Central Bank grants advances to commercial banks for the temporary liquidity purposes. With effect from 4 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end of 1999 this rate was 16 per cent. With effect from 2 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 2 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated by Central Bank monthly based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime Lending Rate is estimated by the Central Bank weekly based on commercial bank's lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter Bank Offer Rate (SLIBOR) is computed daily by Central Bank, based on rates offered by commercial banks in the inter bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Rate on ten year certificates.

(b) The Development Finance Corporation of Ceylon (DFCC) changed its name to DFCC Bank in August 1997 by the DFCC (Amendment) Act, No. 23 of 1997.

(c) The minimum rate represents the refinancing rate charged under the Small and Medium Scale Industries (SMI) Scheme. NDB became a licensed commercial bank with effect from 01 August 2005.

(a) Issue of Treasury bonds commenced in March 1997.

Source : Central Bank of Sri Lanka

(b) The yields on Rupee Loans are administratively determined and not market determined unlike the yields on Treasury bills and Treasury bonds.

(c) The secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

Note : Treasury bonds are not issued on a regular basis unlike Treasury bills. Hence a continuous series of primary market yields on Treasury bonds is not available.

(Contd.)

- (a) The balance sheet data of the Central Bank from 2002 January is based on the International Accounting Standards (IAS). Accordingly foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local books at cost or face value whichever is less.
- (b) Includes securities acquired from government institutions.
- (c) According to IAS, the amount of Sri Lanka's quota with the IMF has been taken into the Central Bank's balance sheet.
- (d) According to IAS, balance sheet of the CBSL is prepared on accrual basis and receivables show interest receivables on foreign securities.
- (e) From February 1975, loans and advances to others include amounts granted under the Medium and Long Term Credit Fund. Credit provided under "Susahana" refinance credit scheme is included from 2005 December.
- (f) According to IAS, government and government guaranteed securities are at fair value basis since January 2002.

(a) The number of reporting banks was 25 in January 2000, 26 in May 2000, 25 in May 2001, 23 in October 2002, 22 in January 2003 and 23 from January 2006 to date. The number of banks prior to 2000 is given in Annual Report 2004.

(b) Includes Central Bank Securities and DFCC Bank Bonds.

(c) Fixed and other assets consist of banks' property, furniture, fittings and sundries (commission, interest *etc.*, and adjustments).

(d) Includes assets/ liabilities of National Development Bank which merged with NDB Bank Ltd. with effect from August 2005.

(e) Restructuring Bonds worth Rs. 19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets, has been included in Treasury Bonds since October 2006.
